attire...

Simple clothes and solid colors work best for photographs. Please avoid black clothing, white shirts and logos. The days of families wearing white shirts and khakis are over; we all don't dress alike in real life & should not in creative portraiture either! Keep it simple. No fancy dresses or formal attire.

attitude...

Gayla works closely with her clients to capture unique and lasting impressions of their special moments. Her expertise and attention to detail makes it easy to relax and enjoy the photographic experience. This carefree approach, combined with her artistic vision, produces images that are both natural and beautiful.
